

High Molecular Weight (HMW)

DNA Isolation Services

ACR
AMPLICON
— express

HMW DNA PREP EXPERTS

*“Send us your starting tissue,
we provide IRYS optimized HMW DNA”*

Amplicon Express provides the best HMW DNA optimized for IRYS BioNano Genomics Optical Mapping Technology

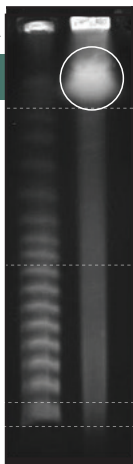

MEGA Base Sized HMW DNA

776.0Kb –

485Kb –

48.5Kb –

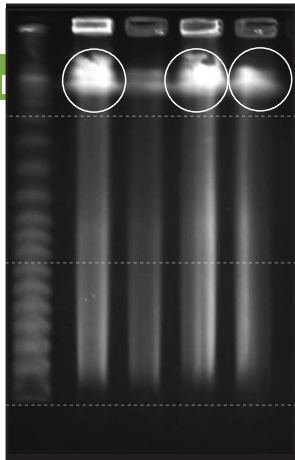

PFGE of HMW DNA
from a marine fish

727.5Kb –

485Kb –

48.5Kb –

PFGE of HMW DNA
from a *Nicotiana attenuata*

Max Planck Institute for Chemical Ecology
Dr. Klaus Gase

Plant Species: *Nicotiana attenuata*

IRYS Labelling enzymes: Nt.BspQI+Nb.BbvCI

Single molecule N50: 110Kb (raw data N50)

Label Density: 12/100Kb (on target)

IRYS Throughput: 2.4 Gb/scan total throughput and
0.66 Gb/scan of usable data (above 150Kb)
