

1st BASE Anniversary Campaign 2013

Celebrate our 11th Birthday with a Glorious Bounty of Offers and Giveaways!

Flexi-Package Anniversary Offers

Starbucks Card worth RM40

Sanyo PROBOX Portable Power Pack with 10400 mAh Li-ion battery

WD MyBook Live, 2 TB

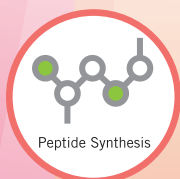

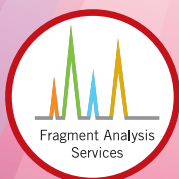

Apple iPad mini, 16GB Wifi

Contact your Product Specialist for more details. Offers valid for signups before **31st Dec 2013**, act now!

Terms and Conditions apply.

Our Expertise

Check out our Anniversary Offers on Molecular Biology Services and Proteomics Services

Offers run from Sep to Dec 2013

Molecular Biology Services

Offers on Species Barcoding and Cloning Services

Buy 5 Species Barcoding Services and get the next 5 FREE!

Species Barcoding Services

Product No.	Description
MBS-5001	Bacterial Species Barcoding, 16 sRNA, partial sequence (~ 600 bp). Includes + PCR amplification and Purification + Bidirectional PCR product sequencing + Data analysis (BLAST to show the top 10 matches from database).
MBS-5002	Bacterial Species Barcoding, 16 sRNA, full-length sequence (~ 1500 bp). Includes + PCR amplification and Purification + Bidirectional sequencing of cloned DNA + Data analysis (BLAST to show the top 10 matches from database).
MBS-5004	Fungal Species Barcoding, ITS (~ 700 bp). Includes + PCR amplification and Purification + Bidirectional PCR product sequencing + Data analysis (BLAST to show the top 10 matches from database).

Special price for Cloning Services

Product No.	Description
MBS-3002	PCR Product Cloning Service (up to 1.5kb) Include: Cloning of a purified/ unpurified PCR product into pJET1.2/ Blunt or pBASE-1 vector, colony PCR screening and DNA sequencing for confirmation.

Please send your orders and enquiries to mbs-my@base-asia.com

Proteomics Services

Offers on selected Proteomics International Services

Discount available for 5 samples and above!

Product No.	Description
SS001-1	MALDI-TOF/TOF Mass Spectrometry (sequencing by MS/MS) Include: Trypsin digestion of protein, running of samples with automatic database analysis. Price per sample.
SS001-2	Electrospray (LC/MS/MS) Mass Spectrometry (sequencing by MS/MS) Include: Trypsin digestion of protein, running of samples with automatic database analysis. Price per sample.

Please send your orders and enquiries to peptide-my@base-asia.com

Peptide Synthesis

Antibody Production

Please enquire on our special deals on Peptide Synthesis and Antibody Production Packages!

Send your orders and enquiries to peptide-my@base-asia.com or antibody-my@base-asia.com respectively.
Alternatively, contact our Product Specialists to find out more!
