

New Launch

Rushing For Time

to complete your research work?

From 19 April 2010, 1st BASE introduces **Expedite Service**, an add-on service which aims to bring more convenience to our valued customers.

With Expedite Service, you can enjoy the benefit of having your order processed and delivered on priority basis (nominal charge applies). This service is applicable for 1st BASE Oligonucleotide Synthesis Service and DNA Sequencing Service, subject to order requirements. This service is only available for orders placed through **100**, 1st BASE Online Ordering system.
