

Peptide Synthesis

1st BASE Custom Peptide Synthesis

All Peptide orders include:

- HPLC Analysis and MS Quality Control Data
- Modifications available:
 - Conjugation to KLH, Biotinylation
 - Amidation, Acetylation
 - Phosphorylated residues
 - Fluorescent labeling
 - Others (please enquire)
- If the synthesis of your order is unsuccessful, you will be notified with alternative synthesis options. No setup charge will be applied.
- Turnaround time for standard non-modified peptides (up to 30-mers) is 4 weeks

Note:

Surcharges may apply for peptides that contain difficult/complex sequences such as highly repetitive sequences or several Cys, Trp, Arg residues. Please submit sequences for review.
